Sorry TomO for the delay. Wanted to first double check with our QAO (Jill Bilyeu--a good contact for your Quality System/ Manual for Quality Assurance questions) and DaveR. Here is the latest in MSword format for your use. The only update was made on August 7th of this year.

The update was has an annotation to the change sheet with initials of a peer: "8.2 Language changed to agree with SDWA Lab Certification Manual (paragraph 6.3.1) and SM9060B. Holding samples at <10°C is not required, only recommended".

Hope this is helpful, JoeS

Thanks Joe. Would it be possible to send me one of your Micro SOP's as an example (i.e., Colisure). I was just curious to see how it was done to follow R3QA060 SOP's.

Thanks,

Thomas L. Ong, HHR Prgm Mgr

This is how we handled QS document records management FYI:

(See attached file: R3QA342 Mgt of QS Records 01-17-12 header fixed.doc)

and older Support Equip SOP--I don't like our orgs. current one!

(See attached file: R3QA065.3 Support Equip\_8\_7\_06.doc)  
Older SOP of SOP...I liked it better

(See attached file: R3QA060 SOPs 01-21-09.doc)

Similarly an older internal audit (technical areas)

(See attached file: R3QA061.2 TSA Process\_8\_7\_06.doc)

A LIMS QS from the PSL in Washington D.C.

(See attached file: WAQC015-LIMS-SOP-12142011-w-Appendices.pdf)
